Scenario Selection: Humboldt Haven IT

Humboldt Haven provides expert computer repair and IT support services to both businesses and individual clients. They offer services such as virus removal, hardware upgrades, software troubleshooting, and network setup. Humboldt Haven also offers maintenance contracts for small businesses only, providing monthly check-ups, system updates, and emergency support. (from the "Ideas for CS 325 Project Scenarios" handout)

10 Questions:

1. What type of services or repairs do we offer?
2. What are the individual costs of our services?
3. How do we schedule routine maintenance work?
4. If we decide to rent equipment, what kind of equipment do we have on hand?
5. Do we charge hourly or per job?
6. Do we have an optional warranty for equipment?
7. Do we charge the same for businesses and individuals?
8. Do we offer limited time deals or discounts for services or equipment such as black friday deals?
9. Do we offer remote services as well as on-site services?
10. Are our customers subscribed to our mailing list?
